6. FAQ

Q1. The internet connection will not be interrupted, while ssl vpn connected
A1: The internet connection will not be interrupted. Different from VPN (Virtual Private Network), SSL VPN will keep the route table to continue to connect internet.

Q2. How to use the account prefix with domain name, connecting to VPN or certificating?
A2:
You need fill work id only while use SSL VPN connection.
You need fill work id and prefix with domain name “res\” while access intranet server resources.
